

JOURNÉES BOIS

INTERDISCIPLINARY MEETING ON WOOD AND SOCIETIES

International meeting - October 18th and 19th, 2021

INHA - Salle Vasari
2, Vivienne street, Paris
by visioconference

Monday, October 18th

<https://zoom.univ-paris1.fr/meeting/register/tJokduyqrTkuH9ZcXUpQHO3NShGK9XOT7dd8>

9h00-9h10: Welcome from the organisers

9h10-9h20: Welcome from the scientific committee by Christophe Petit (Univ. Paris 1, UMR 7041 ArScAn)

Session I - Methods and Techniques of wood analyses in archaeological contexts (Mod. Valérie Daux)

9h20-9h40: Archaeological charcoal analysis and anthraco-typology. Contribution and limits for the study of firewood exploitation, woodland management and palaeoenvironmental studies
DUFRAISSE Alexa, COUBRAY Sylvie, PICORNELL-GELABERT Llorenç, ALCOLEA-GRACÍA Marta, NGUYEN TU Thanh Thuy and DELARUE Frédéric

9h40-10h00: For an estimation of the condition of archaeological wooden structures: the contributions of the xylo- and anthraco-entomological approach
TORITI Magali, DURAND Aline and FOHRER Fabien

10h00-10h20: A piece of furniture, a book of History and natural sciences. Application to Macroscopic Wood Identification
MAURIN Emmanuel, TROUY-JACQUEMET Marie-Christine, GEORGE Patrick and BOUCHARDON Dominique

10h20-10h40: Break

10h40-11h00: Wood in unexpected conditions. Traces of neolithic and protohistoric constructions on well-drained acid silts (Belgium, northern France)
FECHNER Kai, BROES Frédéric and DOUTRELEPONT Hugues

11h00-11h20: The study of woodworking through traceology : methods and objectives
BOREL Alice

11h20-11h40: A blade to cleave wood/antler? : techno-functional study of Magdalenian splintred pieces in Taillis des Coteaux (Vienne)
DAMERY Margot and HOUMARD Claire

11h40-12h00: Contributions of wiggle-matching to dendroarchaeological studies of coastal Neo-Inuit sites in northwest Alaska
TAIEB Juliette, ALIX Claire and DAUX Valérie

12h00-12h20: Provenancing wood used in the Norse Greenlandic settlements: A biogeochemical study using hydrogen, oxygen, and strontium isotopes
PINTA Elie, PACHECO-FORÉS Sofia I., WALLACE Euan P. and KNUDSON Kelly J.

JOURNÉES BOIS

12h20 - 14h00: Lunch

Session II - Wood resources, climate and societies **Environments reconstruction and interactions (Mod. : W. Tegel)**

14h00-14h20: From Paleoindian hunter-gatherers to Mesoamerican horticulturalists: first Holocene anthracological sequence in the Honduran Highlands (11 000 - 1000 BP)
DUSSOL Lydie, HIRT Kenneth and SCHEFFLER Timothy

14h20-14h40: Building a monumental enclosure in the Late Neolithic : resources, forest exploitation, and the transportation and transportation of oak logs (La Villeneuve-au-Chatelot, Aube)
RAVRY Delphine, POIRIER Sandy, TEGEL Willy and BRENOT Jérôme

14h40-15h00: Beams and woodlands: assessing wood resources and wood uses at Minoan Malia (Crete, Greece)
POMADERE Maia, GLAIS Arthur and NTINOUE Maria

15h00-15h20: Archaeological wood from Roman Egypt: between local and imported species. Dendrochronological potential for a climatic reading
BLONDEL François

15h20-15h40: Break

15h40-16h00: Thickets or forests? The marshes (drymoi) of the Egyptian Fayyum in the Graeco-Roman period
SCHRAM Valérie

16h00-16h20: Building in wood in the Loire river during medieval and modern times (Saint-Père / Sully-sur-Loire – 45)
DUMONT Annie, LAVIER Catherine and FOUCHER Marion

16h20-16h40: Multi-century reconstruction of hydroclimate indicators in Patagonia using the isotopic composition of Araucaria araucana tree-rings
PENCHENAT Tiphaine, DAUX Valérie, MUNDO Ignacio, PIERRE Monique, STIEVENARD Michel and VILLALBA Ricardo

16h40-17h00: Dendrochronology and building site: beyond the date
CREMER Sarah, WEITZ Armelle and MAGGI Christophe

17h00 - 17h15: Flashtalks and posters - sessions n°1 and n°2

17h00-17h05: Complementarity of dendrochronology and radiocarbon to overcome the dating limitations of these methods in wood dating
WEITZ Armelle, BOUDIN Mathieu and TIMMERMANS Julie

17h05-17h10: Woods and wooded areas : using and living in them. The craftsmen of oak and juniper in the XXth century
ACOVITSIOTI-HAMEAU 'Ada and HAMEAU Phillipe

JOURNÉES BOIS

Tuesday, October 19th

<https://zoom.univ-paris1.fr/meeting/register/tJwsc-6hqzIuGtUEawiezfam44TnBZF5QN3p>

Session III - Wood craftsmen

9h00-9h20: Time4WoodCraft - Le temps des artisans du bois, le temps des bois d'artisanats
BREMAUD Iris, ALIX Claire, ČUFAR Katarina, GRABNER Michael, GRIL Joseph and MATSUO Miyuki

9h20-9h40: Who were the woodworkers of the early Iron Age in Greece? The contribution of the Homeric epics
ROUGIER-BLANC Sylvie

9h40-10h00: Carpenters in Gaul during Late Iron Age?
PÉFAU Pierre

10h00-10h20: The mechanization of woodworking in the 19th and 20th centuries : technological and cognitive elements of a transmaterialization
LEVILLAIN Gaëtan

10h20-10h40: Shipwrights. Working with timber in wooden boatbuilding
LEBOUC Théo

10h40-11h00: Break

11h00-11h20: La menuiserie apicole, raisons et portraits d'apiculteurs « auto-constructeurs » de ruches
DUPLEIX Anna and MOITY-MAIZI Pascale

11h20-11h40: Bois, textile et sacralité en contexte négro-africain : cas de l'Obom chez les Fang-Beti du Cameroun
JIE JIE Patrick Romuald

11h40-12h00: National heritage and transmission of woodwork techniques in contemporary South Korea
PABERZ Chloé

12h00-12h20: Mark the wood, the track of the Maroons
LACAISSÉ Patrick

12h20 - 14h00: Lunch

Session IV - Wood in societies. Analyzing woodworking techniques

14h00-14h20: Woodworking at the Mesolithic wetland site Zamostje 2: techniques, instruments and artefacts
LOZOVSKAYA Olga, CONTE Clemente and MALYUTINA Anna

14h20-14h40: Carpentry skills of the first agricultural societies in central Europe
MUIGG Bernhard, ELBURG Rengert, HEIN Wulf, PROBST-BÖHM Anja, BÖHM Sebastian, WALTER Peter and TEGEL Willy

14h40-15h00: New perspectives on frame trusses in Greek and Roman monumental architecture

JOURNÉES BOIS

15h00-15h20: Perceiving cultural differences through woodworking: case study of hunting weapon shafts from southern Patagonia

MAERKY Gisèle

15h20-15h30: Break

15h40-16h00: The Morinda Lucida and its cultural uses in Africa

LEDOUX Marie-Claire and BURATTI Mathilde

16h00-16h20: How four types of Japanese Carpenters make Use of the Wealth of their Country's Wood Species

MERTZ Mechtild

16h20-16h40: The use of local wood in construction: evolution of tools in face of current challenges

RODRIGUES-SOARES David

16h40-17h00: Cross laminated timber: a massive building material

LAMOUREUX Margotte

17h00 - 17h40: Flashtalks et posters - sessions n°3 and n°4

17h00-17h05: Carpenter Hoards in Minoan Crete, Tools for Woodworking ? Technological and Functionnal Study of Copper Alloy Tools from Malia (Crete)

LOESCHER Valentin

17h05-17h10: Enigma in the past, result in the present, Salle à piliers dans l'Ouest de l'Iran au Ier millénaire avant notre ère

REZAEI NARAGHI Niloufar

17h10-17h15: Un aqueduc en bois découvert récemment à Aoste (Isère)

SILVINO Tony, BLONDEL François and LAURENT Fabrice

17h15-17h20: Gallo-Roman woodturning in the Civitas Treverorum (Arlon, Mageroy, Belgium, Luxemburg Province) : discarded objects, tools and wood species

DUVAL Maxime

17h20-17h25: Wood craftsmanship illustrated by a panoplie of tools from the end of the 3rd century / beginning of the 4th century discovered at La Croix-Saint-Ouen (France, Hauts-de-France, Oise)

CANNY Dominique

17h25-17h30 : Découverte d'une nasse datant du XVe siècle dans l'Iton à Évreux (Eure, 27)

KOUTSOMITIS Margot, PETIT Christophe, FAJON Philippe, WECH Pierre et WIETHOLD Julian

17h30-17h35: The wooden boat, sand carrier, of Kalaban Coro (Bamako, Mali)

FERON Patrick

17h40 - 18h30: Discussions and conclusion
